

Town of Wilson Parks & Forestry Commission

STANDARD OPERATING PROCEDURES for TOWN OF WILSON MAINTENANCE

- 1, Lawn mowing at Schinker Creek Park is necessary 1x per week on average – more frequently during late spring/ early summer when warm temps & moisture trigger rapid growth; by-weekly during the dry or cooler periods when growth has slowed significantly.
- 2, Spray mulched tree rings, gravel paths & parking lots 1x – 2x per month with herbicide spring through fall.
- 3, Berms & planting beds need to be weeded using a combination of herbicide spray & hand weeding.
- 4, Replenish mulch each spring with a 2” fresh layer of shredded hardwood bark mulch; not wood chips
- 5, Gravel on paths & parking lots needs to be replenished with a 2” fresh layer every 3 years.
- 6, Lime screenings on paths needs to be replenished with a 2” fresh layer every 3 years.
- 7, Clean bathrooms 1x per week.
- 8, Paint bathrooms – currently needed at Schinker Creek.
- 9, Inspect playground equipment & perform any needed repairs & maintenance.

Any other tasks deemed necessary.
