## Hello, Town of Wilson!

It hardly seems like enough time has passed for another newsletter. With the extremely mild winter we have been enjoying, it is so nice to see so many residents out taking advantage of our landscape. In addition to spring (hopefully) coming early, this issue is slightly premature for a specific reason.

### *It's election year!*

The Town of Wilson has a five member board. Every board member serves a two year term on a rotating basis, meaning two are elected one year and three the following year. In the event of an unplanned vacant seat whomever is appointed to fill the vacancy, fills the remainder of the term he or she is filling. In 2023 we needed to appoint a member.

This April, we have two current board members up for re-election, and two residents running for election.

I invite you inside this newsletter to learn a little bit about our four candidates, prior to the April 2nd election.

We have a lot of potential changes coming to our area with the sale

## ELECTION EDITION

of the Gartman farm to the City of Sheboygan. Many of the changes are out of our control.

My hope is that we can bind ourselves together and stand tall as a community.

Changes happen that we don't like. Let's examine how we can address these changes, together.

**Matt Fore**

Town of Wilson Chairman

## THE LONG AND WINDING ROAD

Warmer weather is heading our way! Longer days and climbing temperatures means there will be more people using our roadways for exercise and entertainment.

Here are some tips on road safety and common courtesy to help us all share the road.

Turn your headlights on AT DUSK. Best practice recommended by law enforcement, defined by Statute is: Headlights

## BOOKMOBILE SCHEDULE

4:00 - 5:30 PM

Town Wilson Fire Station  
(5536 Evergreen Dr.)

March 6th, and 20th

April 3, 17th

May 1st, 15th, 29th

The Bookmobile will come to your community on the dates and times listed above.

E-mail your reference questions, requests for materials or reserves to [bkmref@monarchlibraries.org](mailto:bkmref@monarchlibraries.org) or call 920-208-4900 Extension 315.

Remember you can return your materials to any public library in Ozaukee, Sheboygan, Dodge or Washington Counties.

should be turned on 30 minutes after sunset and 30 minutes before sunrise and all other times when there is not sufficient natural light to render clearly visible any person or vehicle upon a highway at a distance of 500 feet." Use your headlights in fog, rain and other situations of low visibility.

Use your high beams when you need to but don't forget, failure to turn them off with a car approaching at 500 feet or less can result in a fine.

### WHILE WALKING OR BIKING:

If you see an oncoming car, PLEASE move to the side of the road as much as possible for your own safety. Here is an excerpt of tips summarized from the Wisconsin Department of Transportation Website:

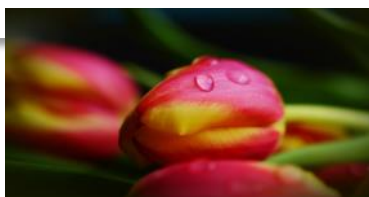

### Reminders for drivers

- **Slow down** when pedestrians are present.
- Where there are children, **keep your foot over the brake** to stop quickly if needed.
- Remember that children and adults have the right to be on the street on in-line skates or on a bicycle, even two abreast, if obeying traffic laws.
- Always stop for a blind pedestrian, child or adult with a white cane or a dog guide. Let them complete their crossing before you move your vehicle.
- **Be alert** for children around school buses and bus stops. If red lights are flashing, you must stop at least 20 feet back.

**Put the phone down.** Pay close attention to the road ahead.

### Reminders for pedestrians

- **Pay attention.** Obey traffic rules watch for cars in your area. Make eye contact with drivers if possible.

- **Walk on sidewalks** whenever available. **If there is no sidewalk, walk facing traffic and as far from traffic as possible.** If traffic is oncoming, tuck in to the side of the road as much as possible.

- **Cross streets at intersections.** If a crosswalk is not available, find a well-lit area with a clear view of traffic and wait for a gap that allows enough time to cross safely.

- **Take extra care at night and at dusk.** Walking at night increases

your chances of death or injury.

Drivers cannot avoid what they can't see. When walking at night, wear

retro-reflective outdoor clothing, shoes,

or lights to make yourself more visible.

Avoid wearing dark clothing. Don't assume drivers can see you. Even a lit flashlight is helpful.

**Provide proper supervision and training for children.** Young children often lack the judgment and experience to make good choices in traffic. Their smaller stature also makes them harder for motorists to see. Adults need to take special care to teach children to behave safely when they are around vehicles.

**Town of Wilson will be hosting the April 4 Wisconsin Town's Association Annual Meeting in 2024! Watch our website for information.**

*"The more things change, the more they stay the same  
All we need's a miracle to take us all away from the pain." Cinderella*

## SWALLOWING THE BITTER PILL

A long time ago, in a land far away (*not really*), a Town Board in the wooded trails and sandy beaches known as Wilson decided their residents deserved something a little more. These brave pioneers embarked on a journey to supply their Town with an amazing service called sewer.

Sewer service came at a great cost; many hours of planning, labor and a whole lot of money. In the initial planning stages it became obvious that serving the entire Town would not be possible. Large areas of farmland and acres of property that sometimes stretch miles between homes prohibited the dream of full service from being realized. Not being deterred, the board decided to start with the "neighborhoods".

The neighborhoods from Deer Gaze, to Maple Grove and from Black River to Sunnyside embarked on an amazing sewerage journey. All of the spidery trails of long and lean underground pipes and stout manholes ended up in culmination at the pump station.

The pump station was a mighty beast. With it's constant running pumps, it's formidable electrical panels and it's state of the art (at the time) ventilation system, it transported every single homes wastewater efficiently

and effectively to the water treatment plant located in the neighboring City.

Many years later, (*36 to be exact*) the mighty beast grew tired. Years of gasses, fumes and corrosion have not been kind. The pump station has done it's job reliably and tirelessly, and now is in desperate need of rehabilitation.

I know that many of you have reached out in the past few weeks regarding the new sewer rates for 2024. It is true that a rate increase from \$75/quarter to \$93/quarter is something larger than what we are used to. Unfortunately, It is necessary to keep things flowing.

The life expectancy of the system has passed and this is simply not something we can ignore. Without the pump station, every single house is susceptible to a sewer backup. That is somewhere we never want to be.

The short and not so fun answer to the question why such a big increase? Much needed repairs.

## DOG LICENSES

Licensing is required for all dogs over 5 months old. Fees are \$7 for a spayed or neutered dog and \$14 for intact dogs. The last day to license your dog without a late fee is March 31, 2024

Please include a copy of the current rabies certificate for each dog you are licensing along with your payment and a self addressed stamped envelope.

Please notify the Treasurer if you have a dog that is no longer licensable in the town.

## PROPERTY TAXES

If you did not pay your entire property tax payment by January 31 the second half Installment is due July 31st; please make checks payable to **Sheboygan County Treasurer** and remit to:

**Sheboygan County Administrative Building at 508 New York Avenue  
Sheboygan, WI 53081**

**We cannot process late or second half installments at the Town Office.**

## FIRE DEPARTMENT REMINDERS

**DAYLIGHT SAVINGS  
BEGINS  
Sunday March 10th**

With bonfire season approaching, please visit Chapter 3 of the Town of Wilson Ordinances to make sure your fire is in compliance.

Check your Smoke detector and CO detector batteries and expiration dates. CO detectors can have expiration dates on them (usually they are good for 5-7 years.) When your detector "chirps" and isn't alarming it may need to be replaced. Check the dates on your detectors and replace them when they expire.

Remember as well to purchase a weather radio for the up and coming storm season. These radios are very valuable in the event of a storm and will provide advanced warning with a built in alarm.

All of our Ordinances are located on our website at [TownWilson.com](http://TownWilson.com)

## NO ATVs/UTVs IN PARKS OR CONSERVANCIES

**A reminder that ATVs and UTVs are not allowed in the Town of Wilson Parks or Conservancies.**

**Below are some photos we received of the damage that is being created. Ordinance violation citations apply.**

*'Im a hard workin' man, doin' all that I can,  
tryin' to make ends meet. Just a-makin' my way through the jungle today, it's gettin' the best of me.  
But it's only gettin' better, and a change is gonna come my way. Yes it's only gettin' better, better every day. - Tesla*

# Town of Wilson Board Election 2024

It is exciting times in the Town of Wilson!

Not only is it a Presidential election year, it is also time for us to elect our Board Members.

Two seats are up for election this year, and four people have dropped their names in the hat.

Here is your chance to meet the candidates in advance of the April Election.

A questionnaire was sent to all of our candidates and here are their responses in order of their receipt.

## ELECTION DAY

**April 2, 2024**

Polls Open

**7 am to 8 pm**

Town Hall

5933 S. Business Drive

For voter registration info  
see page 6

### STU STEMPIHAR

*What Inspires you to run for the Town of Wilson Board?*

I don't like that the City is annexing our land, and I wanted to see if there is anything that could be done about it.

*What is your favorite thing about the Town of Wilson?*

The peace and serenity of rural living.

*What do you feel is the most important issue facing the Town of Wilson Today?*

Annexation by the City.

*Tell us a little bit about yourself.*

I have held many leadership positions, but never in politics.

I like to ask questions, and seek answers. Hopefully that will serve the Town Residents well.

### MARC BRAMI

*What Inspires you to run for the Town of Wilson Board?*

I have been living in the Town of Wilson for over 15 years and have recently retired. I feel it is time to give back to the community that I love. The Town Board has had the same members for many years. It is time to have a new fresh look at the issues, "thinking outside the box". I am a creative thinker and enjoy finding new and exciting solutions to problems.

*What is your favorite thing about the Town of Wilson?*

The Town of Wilson is a beautiful serene, rural, residential area. People move to the area to enjoy the beauty and serenity of the town. My vision is to keep it this way.

*What do you feel is the most important issue facing the Town of Wilson Today?*

Stop the city of Sheboygan and Kohler company from annexing our land and changing the landscape of our beautiful, quiet town. Another main concern with

*What would you like to accomplish as a Town of Wilson Board Member?*

My hope is for the townspeople to become more involved in decisions affecting our community.

I would also like to send out a favorability poll to our residents and get their feedback on a number of issues on a scale of 1 to 10, with 1 being strongly oppose and 10 being strongly in favor on the following topics.

- Kohler Golf Course when proposed
- Kohler Golf Course after City Annexation
- Proposed City housing development on the Gartman farm land
- City of Sheboygan's continued annexations

the Town of Wilson is to lower taxes and I will be addressing ways to lower them.

*Tell us a little bit about yourself.*

I immigrated to the USA from Paris, France at age 26 and have become a leader in the community. I have been the president of Beth El Synagogue for over 15 years and cantor for over 20 years. I am an entrepreneur and small business owner. I started a children's school at our synagogue, organize and lead the holidays and events as well as manage the finances.

*What would you like to accomplish as a Town of Wilson Board Member?*

I would like to give a voice to the residents of the Town of Wilson and increase participation in town board meetings to find solutions and help us make decisions. Also, I would like to increase the awareness and use of the Advancement Hall in Black River through advertising.

[www.marcbrami.com](http://www.marcbrami.com)

## NANCY DESJARDINS

### *What Inspires you to run for the Town of Wilson Board?*

I care deeply about the Town of Wilson and it's residents. My life as a nurse was advocating for patients. Now I want to advocate for residents, finding them solutions for issues and problems.

### *What is your favorite thing about the Town of Wilson?*

The Residents! I have met and worked with so many wonderful residents over the last 16 years of service in Wilson. Helping them feel safe and happy where they choose to live is so motivating!

### *What do you feel is the most important issue facing the Town of Wilson Today?*

Stopping annexation! The City of Sheboygan has only one direction to go for the expansion they need, and it is South into Wilson! Every bite they take out of Wilson changes the character and environmental appeal of Wilson. (The city brings tall street lights, curbs, crowded housing developments, stores, high traffic and environmental destruction.

## TODD RICHTER

### *What Inspires you to run for the Town of Wilson Board?*

I believe in giving back to my community. I have always felt that it is better to be part of something bigger than yourself. I feel that I have some fresh insight to bring to the Town of Wilson. I love talking with our community members to understand what we are doing right and what they feel we can do better at.

### *What is your favorite thing about the Town of Wilson?*

I love the sense of community in the Town of Wilson. I can walk out of my front door and have a conversation with anyone in our neighborhood. There is a warm and inviting sense of community/family here in the Town of Wilson. The community members are very open and honest with their feelings. Getting to know these feelings

### *Tell us a little bit about yourself.*

- Moved to Wilson in 1994
- Founding Service Director of Town of Wilson First Responders (served as Director and responded from '08-'15)
- Researched and started Sheboygan County's first Firefighter Rehab Unit
- Served on County Land Committee ('10-'15)
- Served on Town of Wilson Town Board for 10 years ('14 to current)
- Served on Wilson Fire Partner, Fire Advisory and Annexation Committees
- Professional background: RN in Operating Room and Hospice, EMT.
- I have 3 children and 8 Grandchildren
- Currently retired with time, energy and passion to serve.

### *What would you like to accomplish as a Town of Wilson Board Member?*

To continue to serve the residents, helping them to achieve their goals, rights and safety, through education, ordinances and statutes. To be responsive and available, and never give up on outcomes that are justified for Town residents.

and thoughts can provide insight on how the towns people feel we should be growing. For this I am very grateful to be a part of this amazing community.

### *What do you feel is the most important issue facing the Town of Wilson Today?*

I think the biggest concern currently for the Town of Wilson is property annexation.

### *Tell us a little bit about yourself.*

I was selected to serve on the Town of Wilson Board in 2023. Although I have been there a very short time, I have learned a lot about our community. I will be honored to serve this great community for a full term. I moved to the Town of Wilson in 2018. I joined the Town of Wilson Fire Department in 2019. In 2023 I was promoted to the rank of Lieutenant. In this position I also serve as our Public Education Officer. I have a background in county government dating back to 2004. I currently serve as the

*"If you choose not to decide, you still have made a choice." RUSH*

Director of the Veterans Service Office for Sheboygan County.

One aspect of my job is working with two separate budgets. Having the background in working with an annual budget, helps me effectively lead the Town of Wilson.

I am a retired Army veteran. I served for 23 years with multiple deployments overseas. The last 15 years of my military career I served in supervisory roles. In these roles I worked with multiple budgets and personnel. I think these attributes will help me be successful as a Town Board Supervisor to help effectively serve our community.

### *What would you like to accomplish as a Town of Wilson Board Member?*

I would like to work with the town and the supervisors to discuss ways to stop or reduce the annexation of town property. I would also like to explore opportunities for the town to possibly purchase and grow our community. Collectively, as a community, we can collaborate and help continue to move the Town of Wilson into the future. As a town board supervisor, we can't do this alone. We rely heavily on the towns people for input and thoughts to better our community.

## ELECTIONS

**2024 has three elections coming up!**

**April 2nd, 2024  
Presidential  
Preference**

**Aug. 13th, 2024  
Partisan Primary**

**Nov. 5th, 2024  
General Election**

Visit  
[www.myvote.wi.gov](http://www.myvote.wi.gov) to  
register to vote or request  
absentee ballots

If you want absentee ballots sent to you, please make sure you request them in advance!

**If you are  
interested in working at  
the polls, please call the  
clerk.**

"We were so in phase  
In our dance hall days  
We were cool on craze  
When I, you and everyone we knew  
Could believe, do  
and share in what was true ..."  
- Wang Chung

## GET TO KNOW THE PLAN COMMISSION

*Submitted by Erik Thelen*

The Plan Commission reviews a variety of applications to make recommendations to the Town Board. Some typical projects that come before the Plan Commission include Conditional Use Permits, sign permits, commercial and industrial site plans, and subdivision plats.

The Plan Commission bases its recommendations on whether and how these projects:

1. Conform with the Zoning Ordinance;
2. Promote compatible development;
3. Stabilize and/or enhance the surrounding property values;
4. Foster the attractiveness and functional utility of the Town as a place to live and work;
5. Preserve the character and quality of the built environment;
6. Maintain the integrity of those areas which have a discernible natural or historical character;
7. Protect public investments; and
8. Offer no threat to public health and safety

The Commission's seven members are volunteers appointed by the Town Board Chair. One additional alternate member is elected by the Town Board, and this member steps in if needed to make up a quorum. Members agree to serve three year terms, typically starting and ending in April. The Town is fortunate to have volunteers with expertise in environmental and civil engineering, professional involvement with Sheboygan County transportation and planning depart-

ments, and residents with deep knowledge of the town's history.

The Plan Commission meets via Zoom and dial-up on the second Monday of each month. The agenda is typically posted by the preceding Thursday and includes instructions for accessing the meeting as well as the

scheduled online applications and supporting materials. Town residents are welcome to attend and contribute public comment on any Plan Commission topic at the top of each meeting.

In addition to the regularly scheduled public comment period, the Plan Commission conducts public hearings for all subdivision preliminary plats, conditional use permits, and zoning changes. Notifications for these special public hearings are sent to the Sheboygan Press and to adjacent property owners in advance of the meeting so that the Commission can hear from residents and neighbors.

**If you or someone you know would like to become involved in the work of the Plan Commission, send an email to the Town Clerk describing your interest and qualifications.** The Plan Commission at present needs an alternate member. Have a look at the Town's Zoning Ordinance online at [townwilson.com](http://townwilson.com) --> Government --> Ordinances --> Zoning Ordinance to learn more about the duties and responsibilities of Plan Commission members.

**Feel free to attend a Plan Commission meeting to learn more about getting involved in this important service to our community.**

## VOTER REGISTRATION DEADLINES FOR APRIL 2 ELECTION

All voters must provide a Proof of Residence document when registering to vote by mail, in-person in the clerk's office, or at the polls on Election Day.

Voters can register in the following ways.

March 13, 2024 - Deadline to Register by Mail - Your voter registration form, along with proof of residence must be postmarked to your municipal clerk no later than March 13, 2024.

March 13, 2024 - Deadline to Register to vote online. - Voters who are able to match their name, date of birth, Wis-

consin Driver License or State ID number, and address with the Wisconsin DMV can register to vote online through March 13, 2024.

March 28, 2024 @ 4:00 p.m - Deadline to Register in Your Municipal Clerk's Office - Voters may register in-person in their municipal clerk's office during the clerk's business hours until 4:00 p.m. on March 28, 2024.

April 2, 2024 from 7:00 a.m.-8:00 p.m - Register to Vote at Your Polling Place - Voters can register to vote at their polling place on Election Day, April 2, 2024.

**For in-depth voter information visit: [myvote.wi.gov](http://myvote.wi.gov)**

## THE FUTURE IS HERE

Did you know that all it takes is a teaspoon of salt to permanently pollute 5 gallons of water? Wisconsin has been using salt on roads since the 1950's. Since then, there has been millions of tons of salt applied to roadways that have washed off into soils, waterways, and Lake Michigan. Salt has always been the most cost effective and prevailing way of removing snow and ice from roads. Unfortunately, the environmental impact has become serious, so different ways of keeping roads

safe in the winter months have been studied. Salt is not only impacting our lakes and streams, it also contributes to degrading pavement surfaces, has a negative impact on

plants and animals, can burn our furry friends paws when out for a walk, and has become increasingly more expensive.

Municipalities have slowly been transitioning to utilizing brine both in combination with salt and on its own. Brine is basically a liquid mixture of salt and water. It can be applied directly to road surfaces (direct application) and also sprayed on salt as it is spread (pre-wetting salt). There are benefits to both styles of application. Most roads, bridges, and overpasses benefit from the direct application method. Brine helps to keep a bond from forming between snow and the road surface. This allows for cleaner and more efficient plowing. It can also be put down on roads days before a weather event to help keep snow, ice, and frost at bay. Brine works faster than road salt and reduces quantity. When brine is applied to salt as it is discharged from a truck, it helps to activate the salt quicker, and also makes the salt "stickier" to keep it from bouncing off the road. This "pre-wetting" method works great when salting roads at a higher speed to keep the wetted salt on the road.

The Sheboygan County Highway Department has increased brine use on roads they are contracted to clear. The Town of Wilson worked with Wagner Ex-

cavating to utilize brine in the 2023-2024 winter season. Wagner purchased a dedicated truck along with tank, sprayer, and calibrated electronics to directly apply brine to our town roads. You may have seen the truck out a few times already and thus far this season, this new system of brining is working very well. Remember, it is a pro-active approach in treating roads so don't be surprised if you see the brining truck out on a sunny 40 degree day. With the mild winter we are experiencing, there have been plenty of mornings of frost trying to form on

roads. Brining has been the best solution to combating slippery early morning roads and keeping the environment in mind. We have seen measurable savings in transitioning to brine application as well.

There are a lot of variables when it comes to weather and treating roads, but the brining has definitely started off on the right foot and we will continue to improve the processes. Salt won't be going away anytime soon, but anything we can do to limit its use and still keep our roads safe, is the game plan for the future. If you would like to learn more about brining, visit the website [wisalt-wise.com](http://wisalt-wise.com). It is a wealth of great information compiled by a coalition of organizations from across Wisconsin pertaining to salting and brining. Together, we can do our part in keeping our town a beautiful, healthy, safe, and environmentally responsible municipality!

## HASTA LA VISTA POTHOLE

The Town of Wilson has approximately 40 miles of roads. 20 miles of those roads are owned and maintained by the town. The remainder are county roads. A road has a life expectancy of 20 years give or take. That means about a mile of roadwork should be performed every year to keep up with the cycle. There are different methods of replacing roads as well as maintenance treatments that can prolong the life of a road. Between pulverizing and paving, overlays, and chip or slurry sealing, the town does what it can to keep our roads in the best condition possible within budget con-

straints. It is a slow, costly process to maintain our point A to point B infrastructure. There are many factors which need to be analyzed before it can be determined that a road should be redone. Volume of traffic, speed of traffic, state road ratings, available funds or grants, and town budget are all factors. In conjunction with road projects, betterment and culvert replacements are often performed which add to costs.

For 2024, our largest project will be pulverizing and paving a sizable portion of Frontage Road starting at the intersection of Highway V going north just past Stahl Road. The Town of Wilson has contracted the Sheboygan County Highway Department to perform the roadwork. Frontage Road has been seriously degrading over the years and now with added traffic from new businesses, it is time for the road to be redone. The new road will be 5" thick asphalt which is slightly thicker than a normal road so to handle the extra traffic as well as truck traffic.

There are 3 other roads in the town that are slated to be redone this year. Wahgouly Road, Curtiss Drive, and Pioneer Road East are up for replacement. Along with the roadwork, some minor betterment will be carried out as to aid in keeping water off the roads.

In addition to the planned road replacements, the Town will be having some minor road patches done as well as some surface treatments (chip sealing). This type of maintenance treatment is not suitable for every road, but it does extend the life of the road generally, adding 7 to 10 years of life, if not more. The list of roads to get these patches and chip sealing is pending.

The Town of Wilson has contracted the Sheboygan County Highway Department to do all the planned roadwork and chip sealing this year. Construction dates have not been set yet. Residents located along the affected roads will receive letters notifying them of the construction schedules.
